Senior Living July 2011

Be part of our special "Daytripper" Edition!

BC is one of the best leisure places around - and our Senior Living readers are definitely among those taking advantage of the playground in their own back yard!

This year, our July issue pays homage to this proliferation of recreational opportunities in BC - from popular resorts and tourist hotspots, to summer events and festivals, to tours of cottage industry farms and vineyards... there's no end to the variety of things one can do in just a day (or two), right here in our beautiful province.

We invite you to be a part of this special issue that profiles some of the amazing local travel options and the people who make it all happen.

Our Readers spend more and travel more frequently than any other age group... both home and abroad.

Contact one of our helpful sales reps to find out more.
